

Played as teams or individually. Players land the ball into varying zones on the green (or set out on a practice area). Vary the sizes and colours to adapt scoring for each zone.

Game play

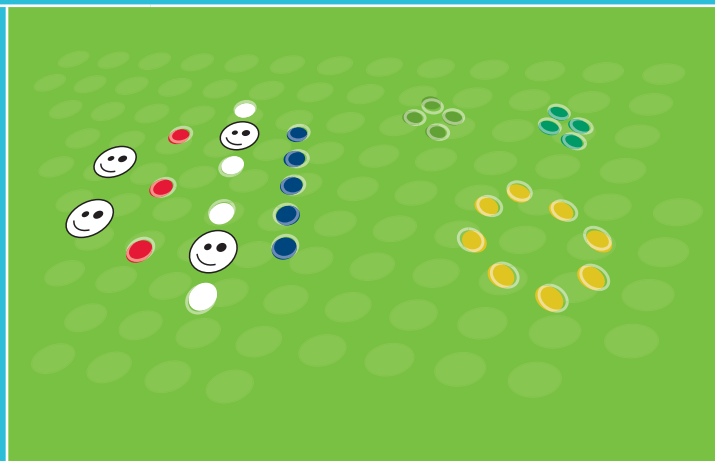

Points are given for a shot that clears the river and misses the target. Extra points for over the river and landing or finishing in a zone.

Mixed ability coaching

Vary size of landing zones and distance from the targets. The coach or players shout out a zone for the group to aim for. They can also use different clubs to highlight most appropriate club. Use the Skills Cards to pick colour of zone and club.
